6 April 1977

MEMORANDUM FOR: Director of Finance

FROM : Clifford D. May, Jr.
Director of Data Processing

SUBJECT : 1977 ODP Conference

Tom:

I want to thank you for participating in our first Office-wide Conference. It was an unqualified success, and much of that success was the result of the willingness of Agency people, especially senior managers like yourself, to share their experiences and ideas with us.

The critiques indicate that the VIP Panel of major users was one of the best-received sessions of the Conference. It was certainly enlightening for ODP personnel to hear about the importance of ODP service from your point of view. I heard several comments to the effect, "They certainly tell it like it is!" The candor and humor you brought to the panel discussion were certainly refreshing.

I would also like to take the opportunity of this memorandum to thank the members of your Support Staff, especially [REDACTED] for STATINTL the advice and assistance they provided my staff in setting up our Conference. Their help was invaluable and saved us from overlooking several administrative details that would have marred our Conference. To you and those very understanding and helpful people, my sincere thanks.
